# 7-Day Curriculum & Technology Immersion

## Curriculum & Technology Immersion Training

3, 5 or 7- Day Workshops

The i<sup>3</sup> professional development program has been designed for the sole purpose of improving student achievement through a refinement of best teaching practices, classroom management and the integration of curriculum & technology when appropriate. The training immerses educators in a 42-hour, hands-on training experience for successful curriculum and technology integration using standards-based lessons. This training develops "highly trained" teachers who learn to integrate technology into their curriculum as they focus on effective teaching methodology. As teachers participate in multiple technology-infused lessons in a modeled classroom, the focus is on:

### ***Sampling of Instructional Topics:***

- Assessment strategies for the technology infused lesson
- Tapping into technology resources
- Planning effective lessons
- Teaching in the one-computer classroom
- Managing a technology-rich classroom
- Creating technology based-projects and activities
- Operating System basics
- Word Processing, Spreadsheets, Databases
- Draw/Paint
- Multimedia hardware/software
- Video tools
- Email

### ***Proven Outcomes:***

- Increased level of comfort with technology.
- Improvement of hardware and software knowledge.
- Dedication of more class time to the overall use of computers and related technologies integrated into the curriculum.
- Increase in the number of instructional purposes for which computers and related technologies are used in the classroom.

To schedule training or to request additional information and a more detailed packet describing this training please contact Floyd Braid at 678-777-4814 or email [fbraid@i3forteachers.com](mailto:fbraid@i3forteachers.com)
